

Turnoverball® Gooseneck Hitch

B&W offers a Turnover Ball Hitch to fit nearly every domestic full-sized pickup on the market. The Turnover Ball is an easily-installed, complete gooseneck hitch that bolts to the frame of your truck using existing holes (see list below). The Turnover Ball comes with a removable 2-5/16" ball and is rated for 30,000 lbs. towing and 7,500 lbs. tongue weight capacity. The ball stores upside down in the socket when not in use, leaving a flat, unobstructed bed floor. To change, just pull and turn the spring-loaded latch pin in the driver's side wheel well, lift the ball out of the socket, flip it over, drop it back into the socket, and engage the latch pin. The process takes longer to read about than it does to complete. They install about an hour, no welding.

Companion™ 5th Wheel Hitches

The Companion™ 5th Wheel Hitch by B & W Trailer Hitches has offered consumers what they expect: “A hitch when you need one, a level bed when you don’t.” By using the Turnover gooseneck Hitch as it’s mounting system, the Companion is the perfect solution for those that tow both gooseneck and 5th Wheel trailers, yet still want to use their truck bed when not towing.

Companion™ Slider 5th Wheel Hitches

Easily converts to a level bed. Fully articulating head allows front-to-back and side-to-side pivoting. Can action latching handle for easy release. 1” thick, wrap-around jaws fit kingpin perfectly. Single point attachment slider. Weight eating: 18,000lbs Trailer Weight. 4,500lbs Vertical Weight. Do not exceed vehicle tow ratings.

Special Instruction: This Hitch requires a truck specific Turnoverball underbed mounting system.

Companion™ OEM 5th Wheel Hitches

B&W’s OEM Companion gives consumers a 5th Wheel choice and is designed to fit the Ford 4-Point Hitch platform installed at the factory. Fully articulating head allows front-to-back and side-to-side pivoting. Three vertical adjustments from 16.75” to 18.75”. 2” if front-to-back adjustment with two coupler positions. Cam action latching handle for easy release. 1” thick, wraparound jaws fit kingpin perfectly.
